CHEMITHON INTERNATIONAL PTE. LTD. (CIPL) in Singapore

In support of our industry leading Sulfonation and Surfactant products, Chemithon International offers a wealth of upstream technology and service options. We provide comprehensive or supplemental integration of Global technologies and resources for optimum system performance.

Design, supply and commissioning are offered for -

Sulfuric Acid Plants

Fractionation and Hydrogenation of methyl esters from fats & oils

Ethoxylation and other Alkoxylation Plants

The Chemithon Product Development team works closely with customers on joint development programs. Our customers receive the benefit of more than 50 years of experience and 300 U.S. and corresponding international patents. CIPL gives Chemithon a broader base on which to develop Green Chemistry with exciting new system applications to lead the industry into the Next Generation.
